Andrea J. Bodinar

Orange, California

I am the owner/operator of Scuba World, Orange, California. Scuba World is a full service NAUI PRO FACILITY. The business has been in operation since 1982. Services include, dive training, travel, equipment rentals, equipment repairs, air fills, Tank inspections, equipment sales, and local dive charters. I am a certified Naui Diver since 1977, and a Master repair technician of scuba regulators, and a certified PSI Tank inspector.

I have no knowledge of any product on the scuba market or in the scuba industry that uses or implements any of the components used in the Honest Phil product.

The Honest Phil product provides divers with a valuable tool in better dive planning, as to the accuracy of volume of the tank fill. It also encourages the tank filler to give a true accurate slow fill while filling the scuba tank.

STATE OF: **California**

COUNTY OF **ORANGE**

On 11-19-03 before me, *Jennifer Jackson, Notary Public* *Andrea J. Bodinar* (or proved to me on the basis of satisfactory evidence) to be the person(s) whose name(s) is/are subscribed to the within instrument and acknowledged to me that he/she/they executed the same in his/her/their authorized capacity(ies), and that by his/her/their signature(s) on the instrument the person(s), or the entity upon behalf of which the person(s) acted, executed the instrument.

WITNESS my hand and official seal.

I George A. Vella hold the following credentials;
Certified open water recreational scuba diver August 1986
Owner of Bottom Time Scuba (a Recreational Scuba Dive Center) since August 1991.
Scuba Equipment Repair Specialist.
Scuba Schools International Instructor.
Divers Alert Network Oxygen Instructor.

The initial idea for Honest Phil was conceived by Mr. Payne while observing the procedure used to fill customers scuba cylinders at my business. By immersing the scuba cylinder in water and controlling the rate of fill to reduce the effects of compressional heating the customer received the maximum amount of compressed air. This in turn would allow the customer to increase the available amount of time underwater based on air consumption. To the best of my knowledge there is no other product in existence that performs this function. It is common knowledge to scuba divers that a scuba cylinder warm to the touch will register a lower pressure when cooled to ambient temperature. Honest Phil gives a clear visual indicator of this phenomenon. Prior to Honest Phil there was no obvious way for a diver to determine pressure loss caused by compressional heating.

I have been involved with SCUBA diving in a recreational capacity since 1988. In 1990, I was trained as a Public Safety Diver, and certified as a Divemaster in 1998. I am a sworn Peace Officer in the State of California, and in this capacity, I have served on public safety diving teams, and assisted in training other officers in search and recovery techniques.

To my knowledge, I have seen no other product in the SCUBA industry that does what Honest Phil does. In fact, I have seen nothing remotely similar in design or concept.

The benefit of Honest Phil to divers is three-fold. Slow filling of SCUBA cylinders is recommended by the manufacturers, as well as promoted within the diving industry. However, this is not always the practice in the "real world". Honest Phil will promote slower, safer filling techniques, thus extending cylinder life. Further, Divers are able to accurately plan dives based on their given air status, by utilizing the information provided by Honest Phil.
